EVERETT M. SNORTLAND
DIRECTOR

MESSAGE FROM THE DIRECTOR

We are pleased to present the 1991 Montana Grain Traffic Statistics publication providing important information for Montana's agricultural industry. This report provides Montana producers and marketers with a better knowledge of the market demand for our high quality grain, thus helping to broaden markets for our state's number one industry.

Montana's Grain Traffic Statistics report is used as a model in other states and has been recognized nationally for its effectiveness. The statistical information contained within the report has proven beneficial to Montana producers as well as the nation. The report has been an invaluable element of resolving the McCartey farm case which involved the method of determining grain transportation rates. The report has also provided data necessary for making more informed decisions regarding proposed management alternatives on the Columbia River, an issue of particular concern to the Pacific Northwest.

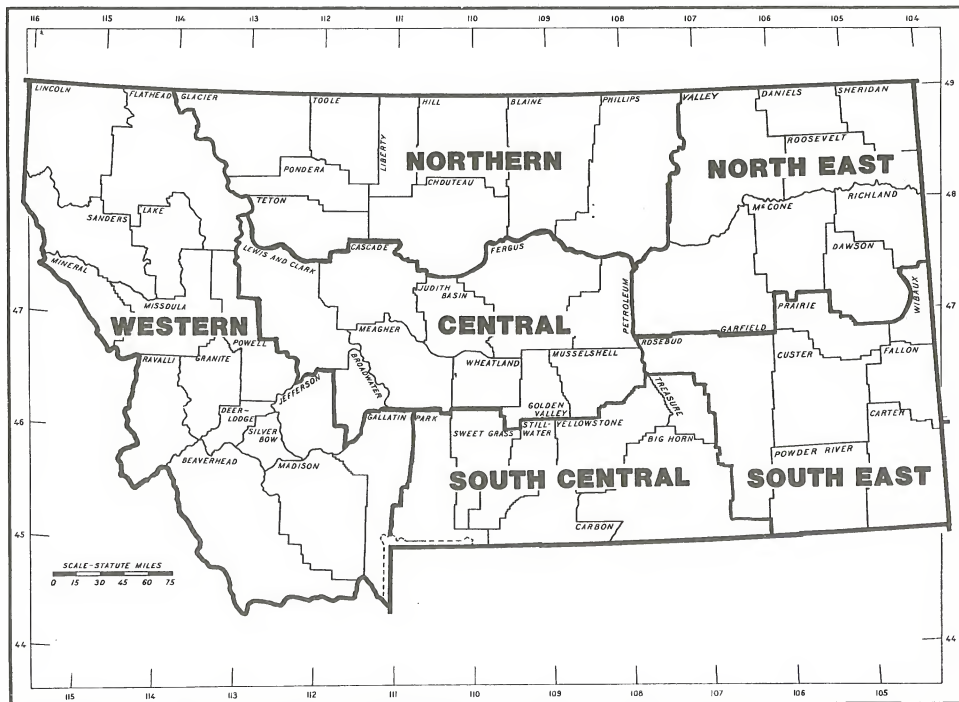

The summary is divided into three shipping districts in order to better assist you in understanding grain movement patterns in Montana. These districts are indicated on the map in the introductory section of the report.

The information is an important element of making sound marketing and management decisions. Through this Grain Traffic Statistics publication, as well as other activities, we continue our efforts to assist Montana's grain industry in developing worldwide markets.

Sincerely,

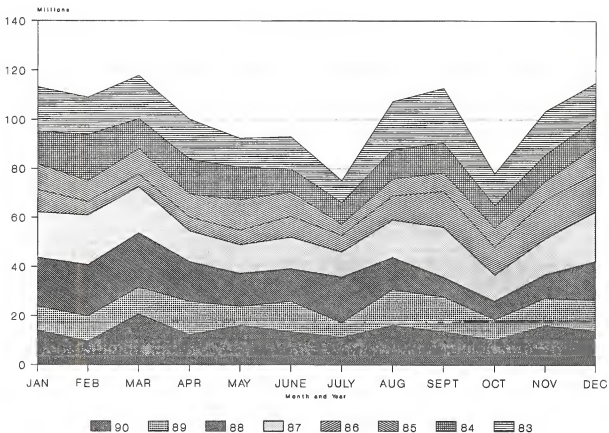

E. M. Snortland
Director
